

Liz Dallas

Executive Director & Founder

Coaching Center of Vermont, Inc.

Liz is a visionary, executive coach, and business innovator, who coaches leaders and emerging leaders to expand their capacity for creating better bottom line results through their teams. With an eye on the Quadruple Bottom Line, Liz walks her talk in her various leadership roles in her business and community.

Liz has worked with top corporate clients, including Burton Snowboards and Green Mountain Power to achieve cultural change, develop leadership-coaching programs to develop emerging leaders, and to create a coaching culture that sustains a high level of business performance. Her proprietary A to B Model for leading transformational change in organizations results in innovation, greater buy-in, ownership, collaboration, and the empowerment of others to create better bottom line results.

Liz also enjoys the opportunity to coach cross-functioning teams to help them break down silos, eliminate duplicated efforts, combine resources, and shift to better harness untapped internal talent to achieve organizational objectives. She has facilitated leadership teams to collaborate, leverage diverse contributions of the each member, create safety and build rapport for open communication and better performance.

Liz Dallas
Vision and Leadership Coach

Liz spent 18 years in corporate leadership roles in the area of product development. Using an entrepreneurial leadership style, she managed to bottom-line results by controlling costs, improving sourcing, capitalizing on industry opportunities, and creating management tools and systems that facilitated and monitored results. Liz is an inventor and innovator who has developed hundreds of technical consumer products, 6 utility patents, created and applied custom process improvement and quality assurance measures, and innovated sustainable business models. Liz's expertise lies in empowering and inspiring leaders to excel with their teams in times of transformational change.
